Mark, Good Washes from Sunny Florida (read it and weep),

A couple of nights ago I attempted to send you an e-mail telling you that I was about to dispatch by regular mail the transcript of my 1975 interview. For whatever reason I got the message a couple of times that my mail was not going out.....although at the bottom of the screen I was told that "message has been sent". Bah! This high tech stuff is getting too complicated.

At any rate, enclosed is a retyping from the original.....such pages as I rescued from the box in which they have been stored for about 30 years. I had one of my people strain his eyes and good nature in retyping, since the originals are a bit yellow and tattered. What I am sending brings us up to the late 1950's . If and when I find the balance of the pages I'll send that along to you.

Also enclosed is a 2003 issue of our Newsletter with reprints of my first sermon at that first service in 1946. This is more a "refresher lesson" than a sermon, since most of the people having been traumatized by the institutional church no longer understood the "why" of the Incarnation and Manifestation of Christ

Also, on page 4 in the "calendar section" are some membership numbers of the charter congregation.

Sincerely,

A handwritten signature in dark ink, appearing to read 'G. A. Hyde', with a long horizontal stroke extending to the right.

Archbishop George (Hyde). .
